ADAM NURUDINI

PERSONAL DETAILS

Date of Birth:	April 24, 1988
Sex:	Male
State of Origin:	Accra
Marital Status:	Married
Nationality:	Ghanaian

SUMMARY

A competent offensive and defensive security expert, web developer, network engineer and an experienced Information Security Consultant. Proven ability to bridge technology and business goals to provide productive solutions. Experienced in demonstrated accuracy and thoroughness, always looking for ways to improve and promote quality; applies feedback to improve performance and monitors own work to ensure quality.

OBJECTIVES

To utilize my educational qualifications and my professional experience in the field of Information security to minimize the risk associated with I.T. infrastructure. To work as an Information Security professional in a competitive environment, with changing technology day by day where I would have the opportunity to grow professionally and innovate, through recognition of my sincerity and hard work.

PROFILE

- More than six years' experience in Cyber Security and Web Development
- A cyber security expert with training certification.
- A team leader with focus on membership development and achievement of goals.
- Ability in handling multiple priorities and getting the job done.
- Effective communications and organizational abilities.
- Always prepared to add value.
- Remain calm under high pressure/difficult situations.

KEY AREAS OF EXPERTISE

• Digital forensics and investigations	• Penetration Testing
• Team and Project Leadership	• Network and Systems Security
• IT Support Service	• Vulnerability Assessment
• Source Code review	• Policy Planning / Implementation
• Risk Assessment / Impact Analysis	• Data Integrity / Disaster Recovery
• Web Development	• Incidence Response
